SUBJECT : Harold S. Geneen - Questions and Answers

1. The following are questions which we believe you may be asked by Mr. Geneen:

A. What is the U.S. Government's prognosis for the Chilean election:

At the present time it appears that Jorge Alessandri, an independent, will win the plurality, but that the final result will probably be fairly close with Allende in second place.

B. What is the U.S. Government doing in this election?

We are not supporting any of the candidates and our effort is restricted solely to trying to lessen the chances of Allende either winning a plurality or polling a close second.

C. Should my company donate funds to Alessandri?

Yes, if you deem it in your best interests to do so, and feel that you can do it secretly.
